New Visions Announces Internet Delivery Speed of 10/5 Mbps for \$28.95

Syracuse, N.Y. (February 25, 2008) New Visions PLC, Inc. a provider of affordable high-speed broadband solutions, today announced that it has increased its basic residential internet service to 10Mbps download speed and 5 Mbps upload speed for an affordable \$28.95. Customers can increase their service to 20 Mbps download and 7 Mbps upload speed for an additional \$9.95 per month.

Carmen N. Branca, Jr. President of New Visions said, "High-speed broadband is the infrastructure of the 21st century. By introducing high-speed broadband for under \$30, we believe we have been able to break the barrier for affordable high-speed broadband to the masses. Unlike other companies that have introductory offers that increase after an initial period, we are providing a service without the gimmicks that I believe the homeowner appreciates. Unlike other services that announce speeds of "up to" or "burstable," New Visions is providing fast, consistent speeds which do not slow do to high traffic volume. Our customers will notice the difference."
