### **New Visions Announces Business Class Telephone Service**

**Syracuse, N.Y. (April 3, 2009)** New Visions PLC, Inc. a provider of affordable high-speed broadband solutions, today announced that it has introduced its business class telephone service.

“Since the introduction of our highly successful residential telephone service last September, our business customers have been asking us to introduce affordable telephone service. Business customers will now be able to enjoy the same savings that our residential customers have seen,” stated Carmen N. Branca, Jr. President of New Visions. Our offering includes unlimited long distance calling in the United States and Canada. Customers will be able to expand their markets without the expense of long distance calling. A major difference in our telephone offering vs. cable telephone offering from companies such as Time Warner is our telephone service still works if power is lost in your business. In today’s working environment, we believe this is critical, especially in areas that have limited cell service.”

#### **About New Visions Powerline Communications, Inc.**
